Web Performance Optimization

Initial Lighthouse Performance audit - mobile

BEFORE **95/100**

BASELINE RESULTS

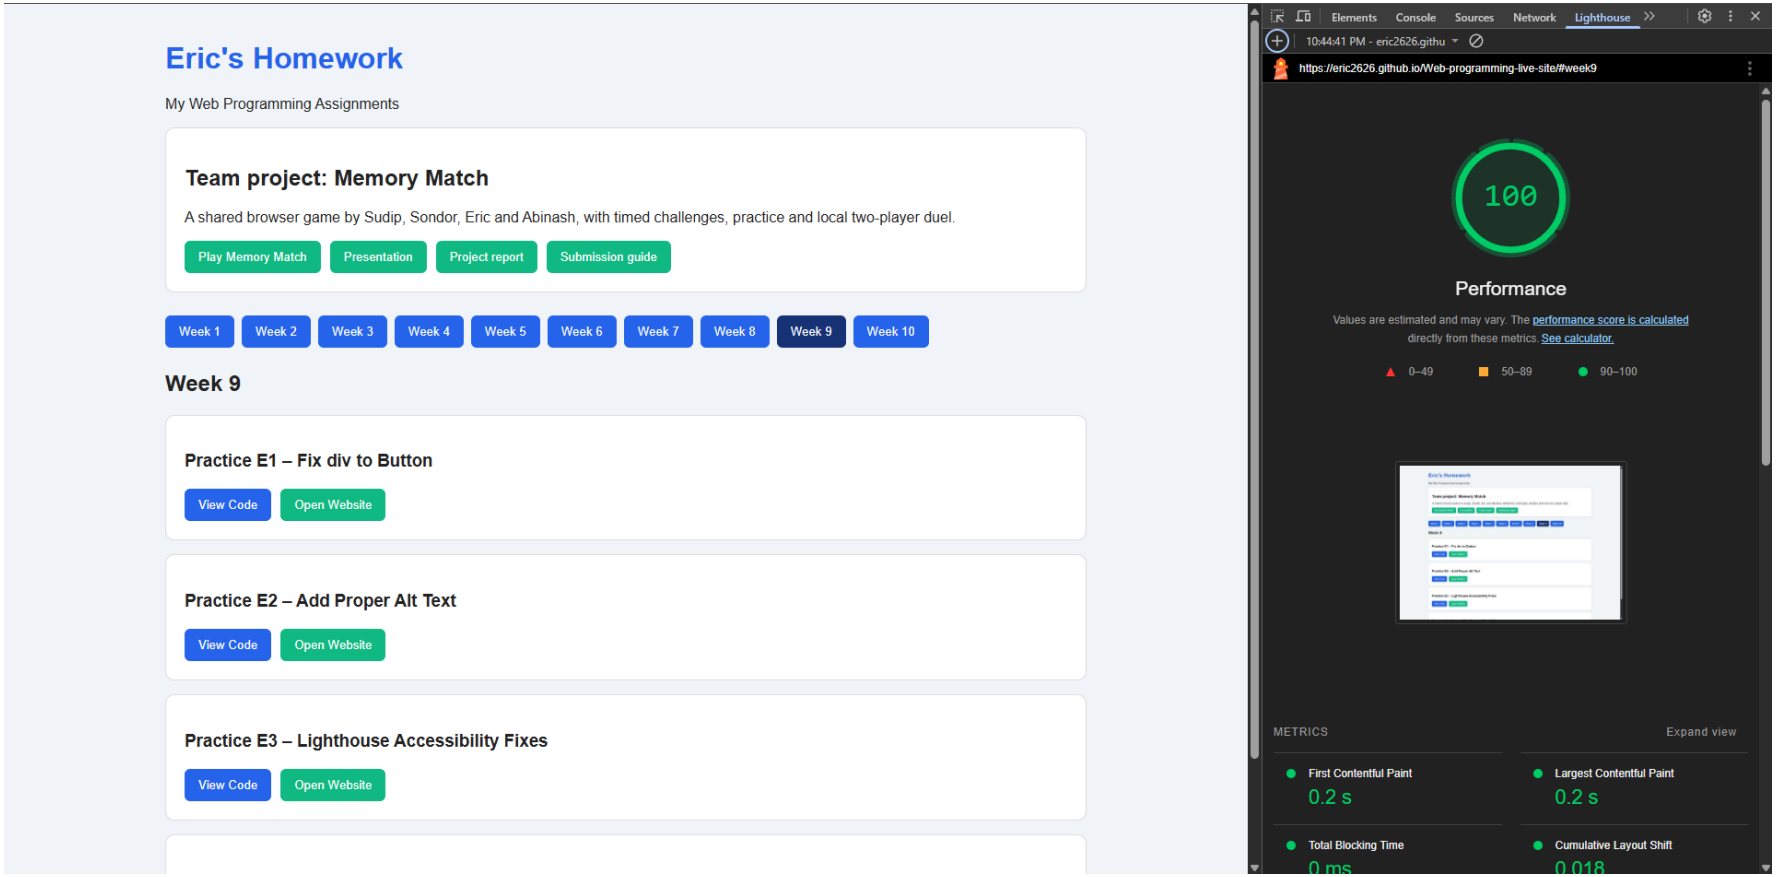

Performance: 95 | First Contentful Paint: 0.6 s | Largest Contentful Paint: 0.6 s

This screenshot was taken before the optimization changes.

Web Performance Optimization

Final Lighthouse Performance audit - mobile

AFTER **100/100**

UPDATED RESULTS

Performance: 100 | First Contentful Paint: 0.2 s | Largest Contentful Paint: 0.2 s

Optimizations: deferred JavaScript • minified CSS • allowed standard browser caching

I made the website faster by using defer for JavaScript, minifying CSS, and enabling normal browser caching.

The Lighthouse Performance score improved from 95 to 100 after these changes.
